

# MCI™ TRANSPORT

# FEATURES & SPECIFICATIONS

The surface mounted MCI™ TRANSPORT is designed to improve indoor air quality by dealing with pollutants in a proactive way. The MCI™ TRANSPORT sanitizer produces aggressive ionized oxidizers and trademarked multi-cluster ions that are then distributed throughout the mobile environment.

This trademarked MCI™ Multi-cluster Ionization Technology, using an enhanced output, represents the newest generation of proactive air purification, is completely safe, unlike high levels of ozone, and effectively destroys mold, mildew, bacteria, viruses, odors, volatile organic compounds (VOCs) and the odors associated with them in the air and on surfaces.

When used as part of a holistic solutions protocol, the MCI™ TRANSPORT sanitizer provides a comfortable and germ-free environment in buses, RVs, ambulances and other mobile environments. This particular air purifier is designed to cover approximately 2,000 cubic feet depending on the level of contamination and configuration of the unit to either MCI+ or PCO.

## MAIN FEATURES

- Ball bearing brushless quiet squirrel cage blower motor.
- Exclusive MCI™ (Multi-Cluster Ionization) technology to attack mold, bacteria, VOCs and odors. Can use either MCI+ or PCO technology dependent on application.
- Power ON light indicator for easy maintenance of MCI+ lamp.
- MERV7 annual replacement filter to meet ASHRAE 52.2 Standard.
- Universal AC/DC power supply plugs to either 110V or 12V.
- Energy efficient low voltage operation.
- Unique design provides maximum coverage for conditioned space.
- Powder coated for durability (color selection available on quantity orders)

## APPLICATIONS

- RVs, Ambulances, School Buses and other mobile units where durability is needed

## SPECIFICATIONS

- Electrical (UL, CE, PSE, TUV, EK and RoHS Compliant)
- Ozone Output: negligible with MCI+ or PCO technology
- 110V/50Hz converted to 12V low voltage, 3.4W operation
- Trademarked MCI™ Multi-cluster Ionization Technology
- MERV7 Filter

## PACKAGING

Unmarked Carton (packaged 1 to a case)  
12" x 10.5" x 4"                      304.8mm x 266.7mm x 101.6mm                      5.0lbs., 2.267kg
